

# Proud Sponsor of the SharePoint Community.

Microsoft SharePoint MVPs all over the world rely on us for hosted SharePoint.

## Focus, passion & pride.

When someone has a rare medical condition, they don't see their family physician; **they seek out a specialist**. They want an expert who works with that condition every day; **a trusted leader in their field**. The way we see it, SharePoint hosting is no different.

## SharePoint is a unique, complex and powerful tool.

Our entire company is 100% focused on SharePoint, and every solution from Fpweb.net is engineered with passion and pride, furthering our singular goal to do whatever it takes to be the best at providing hosted SharePoint services.

## The SharePoint Hosting Pioneer™

In 1999 we were the first and only company in the World to host SharePoint. In early 2010, we became the first company in the World to offer hosted SharePoint 2010. Our innovative nature is the heartbeat of our team that supports clients in more than 80 countries across the globe.

## So much more than hosting.

### Extended SharePoint Services

We have a team of SharePoint experts to help you take your deployment to the next level.

- ✓ Migrations and Upgrades
- ✓ Advisory Services
- ✓ Managed Services

### A Profitable Reseller Partnership - Made Easy.

Earn 10% on each solution at initial sale and 5% of their recurring billings. Your clients, your call!

- ✓ Private label partnership
- ✓ Personal, reliable service
- ✓ Easy online tech support

visit [www.fpweb.net/reseller](http://www.fpweb.net/reseller) for more information.

Over a decade of SharePoint hosting **experience**, an unmatched level of **dedication & expertise**.

## Relax. We've got this.

We take care of SharePoint so you can take care of business.

Today, organizations are changing their IT strategy & server technology to adapt to the cloud and new complex configurations. **The cost of servers, data security, technical talent and unpredictable budgets can be painful.**

We've really got this - SharePoint as a service from Fpweb.net.

- ✓ **Complete** SharePoint Server control.
- ✓ **Secure** VPN tunnels & Active Directory integration.
- ✓ **60% Savings** compared to in-house SharePoint deployments.

### Eliminate up-front costs and huge capital outlays.

Research by Gartner, Forrester and CIO magazine show that companies can lower the total cost of infrastructure ownership 25-60% with managed hosting.

What would a 60% I.T. budget surplus do for your bottom line?

### No need to sacrifice security and control.

With hosted FLEXible SharePoint from Fpweb.net, you enjoy a predictable monthly cost **without sacrificing the scalability and security your unique situation demands**. Refocus your precious resources to innovate and improve your core business while we handle the intricacies of SharePoint.

## 24x7x365 Live Support

### We are here to help.

Fpweb.net SharePoint engineers are always available to provide friendly, personal service - day or night.

So go right ahead, **call us at 2 a.m. New Years Day... we'll be there** via phone, email and your Fpweb.net online account portal.

### Super Savvy SharePoint Experts.

When you host SharePoint with Fpweb.net, you're trusting the same team Microsoft trusted to aid in their SharePoint 2010 research.

We will supercharge, supervise and maintain your SharePoint infrastructure with **a level of knowledge and experience that simply doesn't exist anywhere else.**

visit [www.fpweb.net/why-us](http://www.fpweb.net/why-us) for more information.

CIRQUE DU SOLEIL

# What is FLEXible SharePoint?

A SharePoint cloud of infinite possibility.

## FLEXible server control.

Need control over your SharePoint environment with full admin access?  
Need Visual Studio integration?  
Go ahead, take the wheel.

## FLEXible customization.

Custom design & development?  
Custom web parts? No problem.  
Explore the possibilities with a server all your own.

## FLEXible private cloud.

Enjoy your own secure SharePoint environment while maintaining all the flexibility and technological efficiencies of a public cloud infrastructure.

## FLEXible licensing.

If you have a license agreement with Microsoft, we can use it.  
If not, we'll handle it for you.  
Either way, you're covered.

## FLEXible integration.

It's your Network, your way.  
Secure VPN tunnels with 1-way trusts or ADFS provide access to our network resources, without exposing yours to us.

## FLEXible capacity.

Scale your capacity in minutes, not days - to pick up the pace of your pending integrations.

**FLEX**  
Total server control in your private cloud provided by **fpweb.net**

**fpweb.net**

Connect your Clouds.

**2010 PARTNER OF THE YEAR**  
**Finalist – Hosting Solutions**

# Hosted vs. On-Premise SharePoint.

Save time & money with total server control in your private cloud.

**Fpweb.net can lower your SharePoint TCO by 25-60%.**

For most companies, that's a lot of zeros. Zeros generated by the growing cost of servers, security, planning and unpredictable budgets. That's just the hardware - what about the costs associated with SharePoint expertise and administration?

We will reduce your costs and relieve your SharePoint headaches.

- ✓ SharePoint 2010 Foundation Hosting
- ✓ SharePoint 2010 Server Hosting
- ✓ SharePoint 2007 Server & WSS v3 Hosting

**Our knowledge, speed and security are simply unmatched.**

We have earned the trust of our clients through our industry-leading SharePoint knowledge, **100% uptime SLA**, state-of-the-art data centers and SuperFast™ network.

**Big, small, we've hosted it all.**

From multi-tenant sites to single servers to highly-available redundant multi-server farms, Fpweb.net builds FLEXible SharePoint solutions that are designed to build on - leaving plenty of room for growth and flexibility. One size does not fit all.

## FLEXible Configurations

### Multi-tenant Starter

Host-headers only (shared SSL)

### Multi-tenant Group

Web-app & unique IP (unique SSL)

### Semi-Dedicated

Single WFE + shared SQL back-end

### Dedicated Server

Single server containing WFE & SQL

### Multi-server farms

custom 2 & 3 server farms suited for secure public-facing deployments

### High-availability farms

redundant 4+ server farms for ultimate uptime & reliability

gear server control    3x3 grid multi-tenant    square dedicated server

# Pioneer {pahy-uh-neer}

-verb to lead the way, to blaze a trail

Continuing to lead requires vision, commitment and innovation.

As the founder and CEO of Fpweb.net, I want to let you know that my SharePoint team is ready to help you 24/7. Should you need anything at all, please don't hesitate to contact me.

We take care of SharePoint so you can take care of business.
